

BUYER SOLUTIONS

Punchout API for ERP Systems

If you use your ERP system for e-procurement, our **PunchOut API for ERP Systems** solution uses proven, minimally invasive Cloud technologies to enable your requisitioners to order from your supplier's PunchOut catalogs.

HOW IT WORKS

The **PunchOut API for ERP Systems** provides users of SAP, Oracle, Netsuite, Microsoft Dynamics, Navision, Epicor and other ERP systems a standard way to access PunchOut-ready suppliers for online ordering, from directly inside their ERP system, using its API. Vurbis provides modifiable, pre-packaged API Feed Agents that, in combination with the Vurbis Cloud, gives the ERP system a virtual PunchOut API that operates just like the PunchOut gateways found in e-procurement systems (Coupa, SAP Ariba, etc.) and their proprietary supplier networks.

PRICING

PunchOut API	\$4500 annually*
Supplier Fee	\$300 annually per supplier**

*Punchout only, add \$1500 per year for cXML PO dispatch and invoice receipt

**Fee waived if supplier is part of the FREE Supplier Onboarding Program

FEATURES

- cXML, OCI, xCBL, UBL supported
- Data mapper
- Business rules, validations and notifications
- Web Page modifier

BENEFITS

- No more catalog management costs
- 100% e-procurement spend coverage
- Automate your purchase order thru invoice receipt process
- Regain control of your tail spend

FREE Supplier Onboarding Program

Your company has invested much time and many dollars (or Euros) into its e-procurement program - but to fully realize the benefits, and get a return on your investment, you'll need your suppliers to be Punchout-ready. Let Vurbis help them help you!

HOW IT WORKS

1. Send Vurbis a list of suppliers you would like to be Punchout-ready, including the contact information of their e-commerce specialist or catalog management specialist
2. Send us your Supplier Punchout Instructions (if you are using our **Punchout API for ERP Systems** solution, you can skip this step, we will already have this information)
3. We'll contact the suppliers on your behalf, engage them, get them PunchOut-ready them based on your Punchout requirements, and onboard them for you

PRICING

FREE*
